

## PRESS RELEASE

FOR IMMEDIATE RELEASE

June 10, 2019

### **VOOY TECHNOLOGY SERVICES UNVEILS "RENTERSVINE.COM", A NEW TECHNOLOGY PLATFORM FOR LISTING AND MANAGING RENTAL PROPERTIES.**

**Benin City, Edo State** - VOOY Technology Services LTD today unveiled Renters Vine ([rentersvine.com](http://rentersvine.com)), an industry disrupting platform that makes Property Listing and Management easier and faster. It is a revolutionary platform designed for both Property Managers and Renters to simplify all Rental Property transactions using carefully designed software and streamlined processes.

"[Rentersvine.com](http://Rentersvine.com) unveiled today, make all Rental Property transactions seamless, faster, easier and more fun for Landlords, Property Managers, Agents, and Renters. It changes the status quo and represents the future of the Renting and Property Management in the Real Estate industry," said Odiri Mike-Ifeta - CEO of VOOY Technology Services LTD. "Our focus on the Rental market segment has allowed us to build tools, features, and services that add value for all players in the marketplace. We think all the players are going to love Renters Vine."

On [rentersvine.com](http://rentersvine.com), Property Managers target and attract the exact Renters they want because only registered users can contact them through the platform. The approach of targeting a specific market segment cuts off the noise in the marketplace and increases the chances of Renting Properties by as much as 60%. Some studies in other markets have shown that vacancies get filled between 60 and 90 days in dedicated marketplaces.

Evelyn Adewale, Property Manager said: "I have found [rentersvine.com](http://rentersvine.com) extremely useful. These guys have gone beyond sending me leads. I get to manage my tenants for on the platform for a single price. You must try it to believe it. I highly recommend this platform!"

[Rentersvine.com](http://Rentersvine.com) is set to elevate the stakes in the industry by leveraging the power of technology and world-class standards through features like a Community Forum, a well-resourced help center, and a target blog section that complements and adds value to the overall experience of using the platform.
